

# Liberty **SHOW**® 2-Side Electric Screen

## SCREENMIX

Seeing same image from both sides of one screen is the magic of ScreenMix. Developed by VEGA MFG LTD, ScreenMix combines front and rear projection. Projected image appears on both sides with high quality. It delivers vivid images and excellent visibility in daylight. This revolutionary technology attracts audience in shops, window displays, banks and other high traffic areas. ScreenMix is the perfect solution for visual advertising a: point of sale promotion and communication.

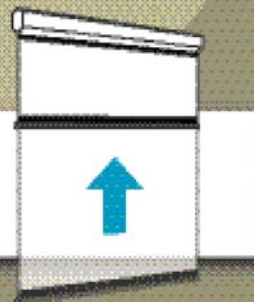

### Special Features

- Front and rear projection
- Screen format ranging from 1:1 to 16:10
- Retractable electric screen
- Wide viewing angle
- Easy installation

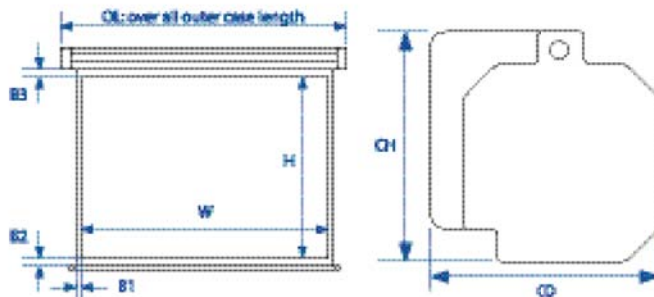

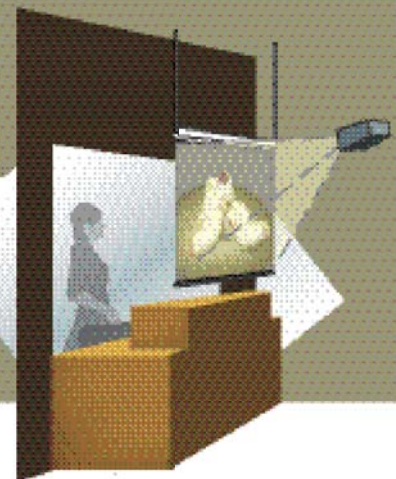

ScreenMix is an eye-catching marketing tool. By using rear projection, images, graphics or videos can be projected on the screen by the shop window in bright-lit. It can attract audiences' attention in high traffic areas easily.

ScreenMix is a retractable electric screen which can be rolled up when it is not in use.

Customers can see the projected images inside the shop.
